- Canishk Naik's classes have been extraordinarily good! His class helped a lot for me to understand some of the key knowledge.
- Canishk explains concepts in simple terms and explains how to do questions very clearly.
- Canishk has a very lucid way of teaching. He makes sure to stress all of the key points and focus on a particular point if he sees some students struggling with it. The in depth solutions to the problem set of the prior week is almost always wholly covered.
- Dr Nail has always been responsive and tries his best to help his students. He actively sought for suggestions and feedbacks from his students.
- Engaging band explains concepts missed by the lecture very well.
- Explains concepts very thoroughly and clearly and goes through problem sets with easy to understand explanations.
- Explains well, takes concepts from zero.
- He gives us a recap everytime during class, which is very beneficial since lectures are confusing
- He made sure that the entire class understood before moving on.
- He really understands the difficulty students faced in understanding the concepts and helps us visualize answers using the graphs very well!
- He was really good at explaining everything and went through everything in great detail.
- I really think we understand the concepts in class better with real examples
- My teacher helps me to grasp the content of the lectures to higher degree. I find that after my lectures I don't have a strong understanding of the theory but during classes my teacher allows for a lot of questioning which helps me in this aspect.
- Thorough consolidation
- Went over the work as well as problem sets

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

■ It would be nice if we spent more time on the harder questions in the problem sets because we usually start with question 1 and spend a lot of time on that, which usually means that we run out of time to go through the harder questions later in the problem sets thoroughly.

■ Nothing in particular.

■ Sometimes too much time spent on relatively easy concepts, but understandable that some may need this.

■ This is not to do with the teacher, but given how this course has more content than other half units it felt like we needed more teaching hours as we could never finish going through the work in the 50 minutes.

■ X
